

We in the State of Wisconsin are trying hard to set a higher standard. We wish to be left alone. And leave the choices up to individual states or use our state law as a guide line. My father is a politician with high respect and honor. He says, a person in a political office should not be bread and buttered to do something. That they should do what is best for their community, their state, their Nation and their heart, before the influence of big Business. He avoided a conflict of interest.
